Substance Use Disorder with an Opioid Specialization

In partnership with Purdue University College of Pharmacy, Office of Continuing Education, and funding through the Employer's Forum of Indiana, Overdose Lifeline has developed healthcare clinician and layperson continuing education on **Addiction / Substance Use Disorder with an Opioid Specialization.**

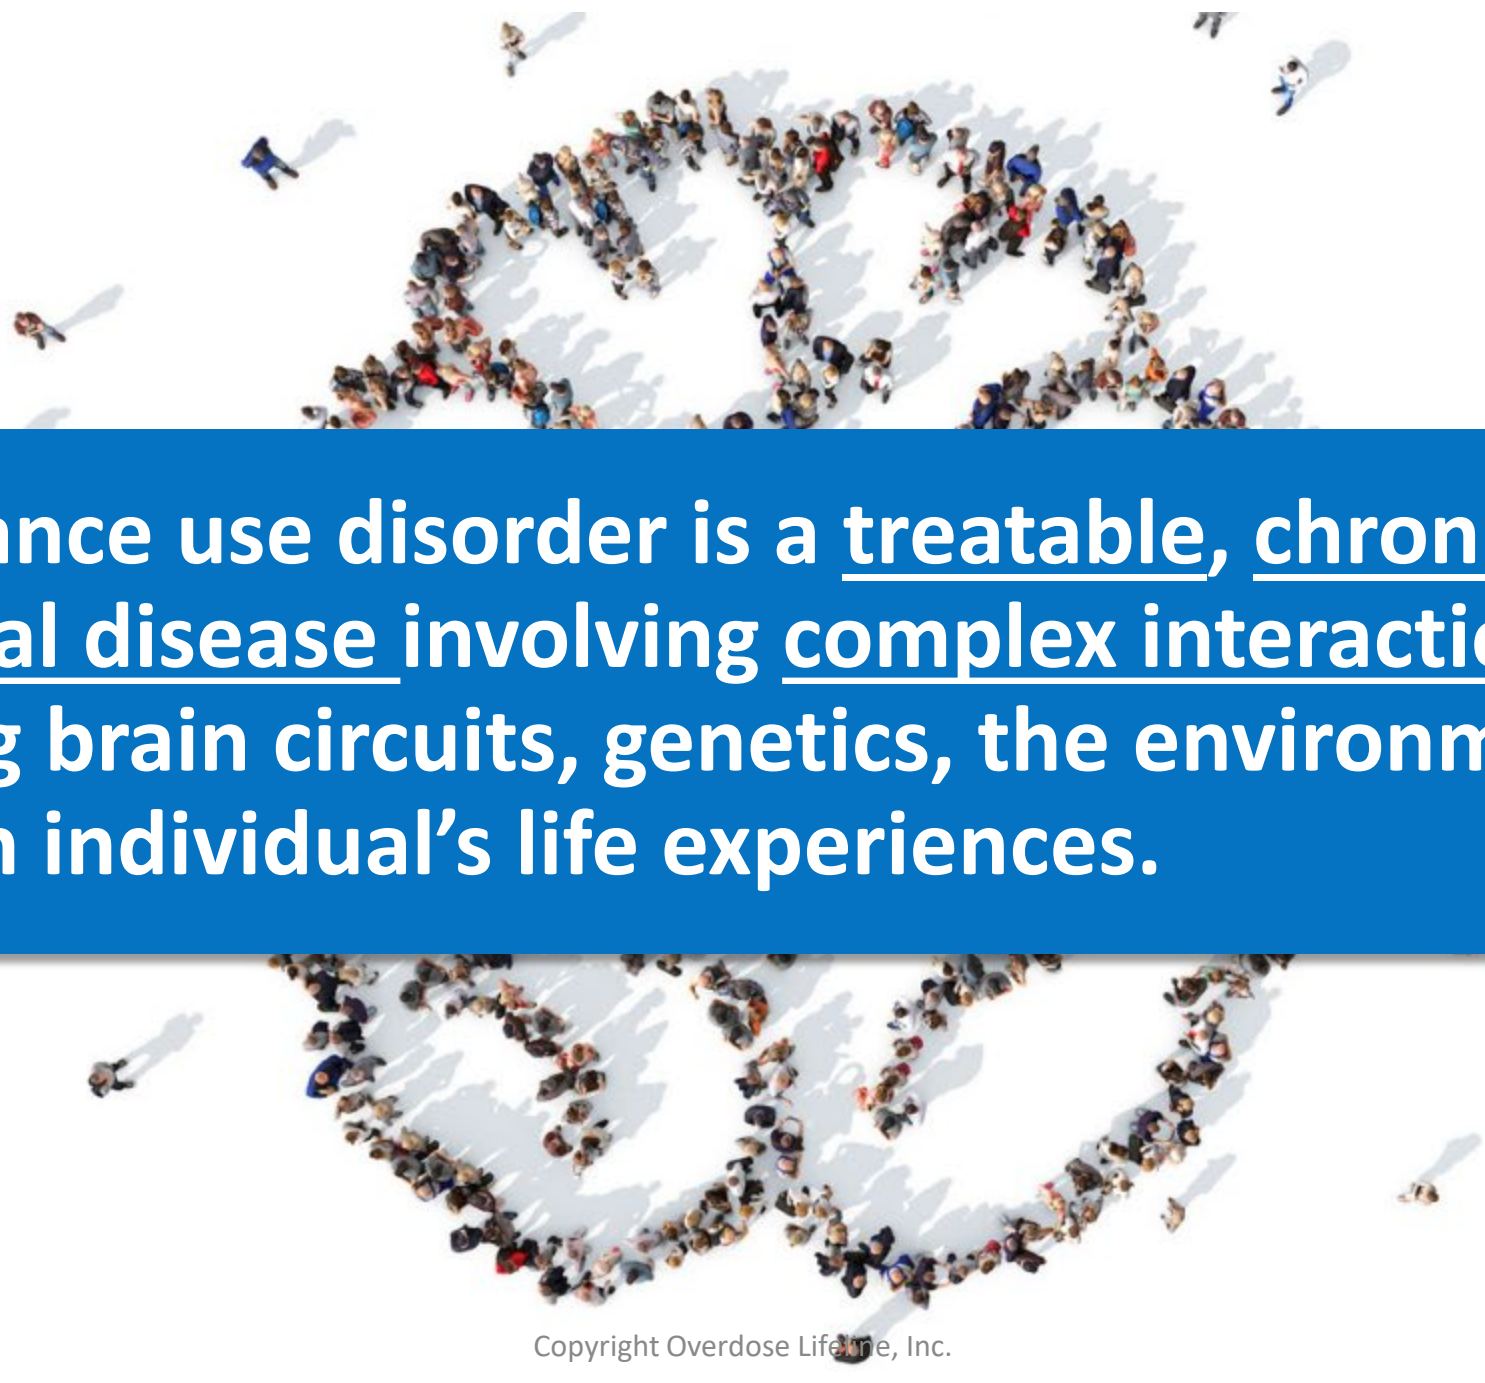

Substance use disorder / addiction is a major public health concern in the United States.

20 million are symptomatic, or in active addiction.

Another 23 million are living in recovery. They are non-symptomatic.

Combined, 43 million Americans are affected.

Substance use disorder is a treatable, chronic medical disease involving complex interactions among brain circuits, genetics, the environment, and an individual's life experiences.

Substance use disorder (SUD) or addiction is not a choice, and it's not due to a lack of willpower.

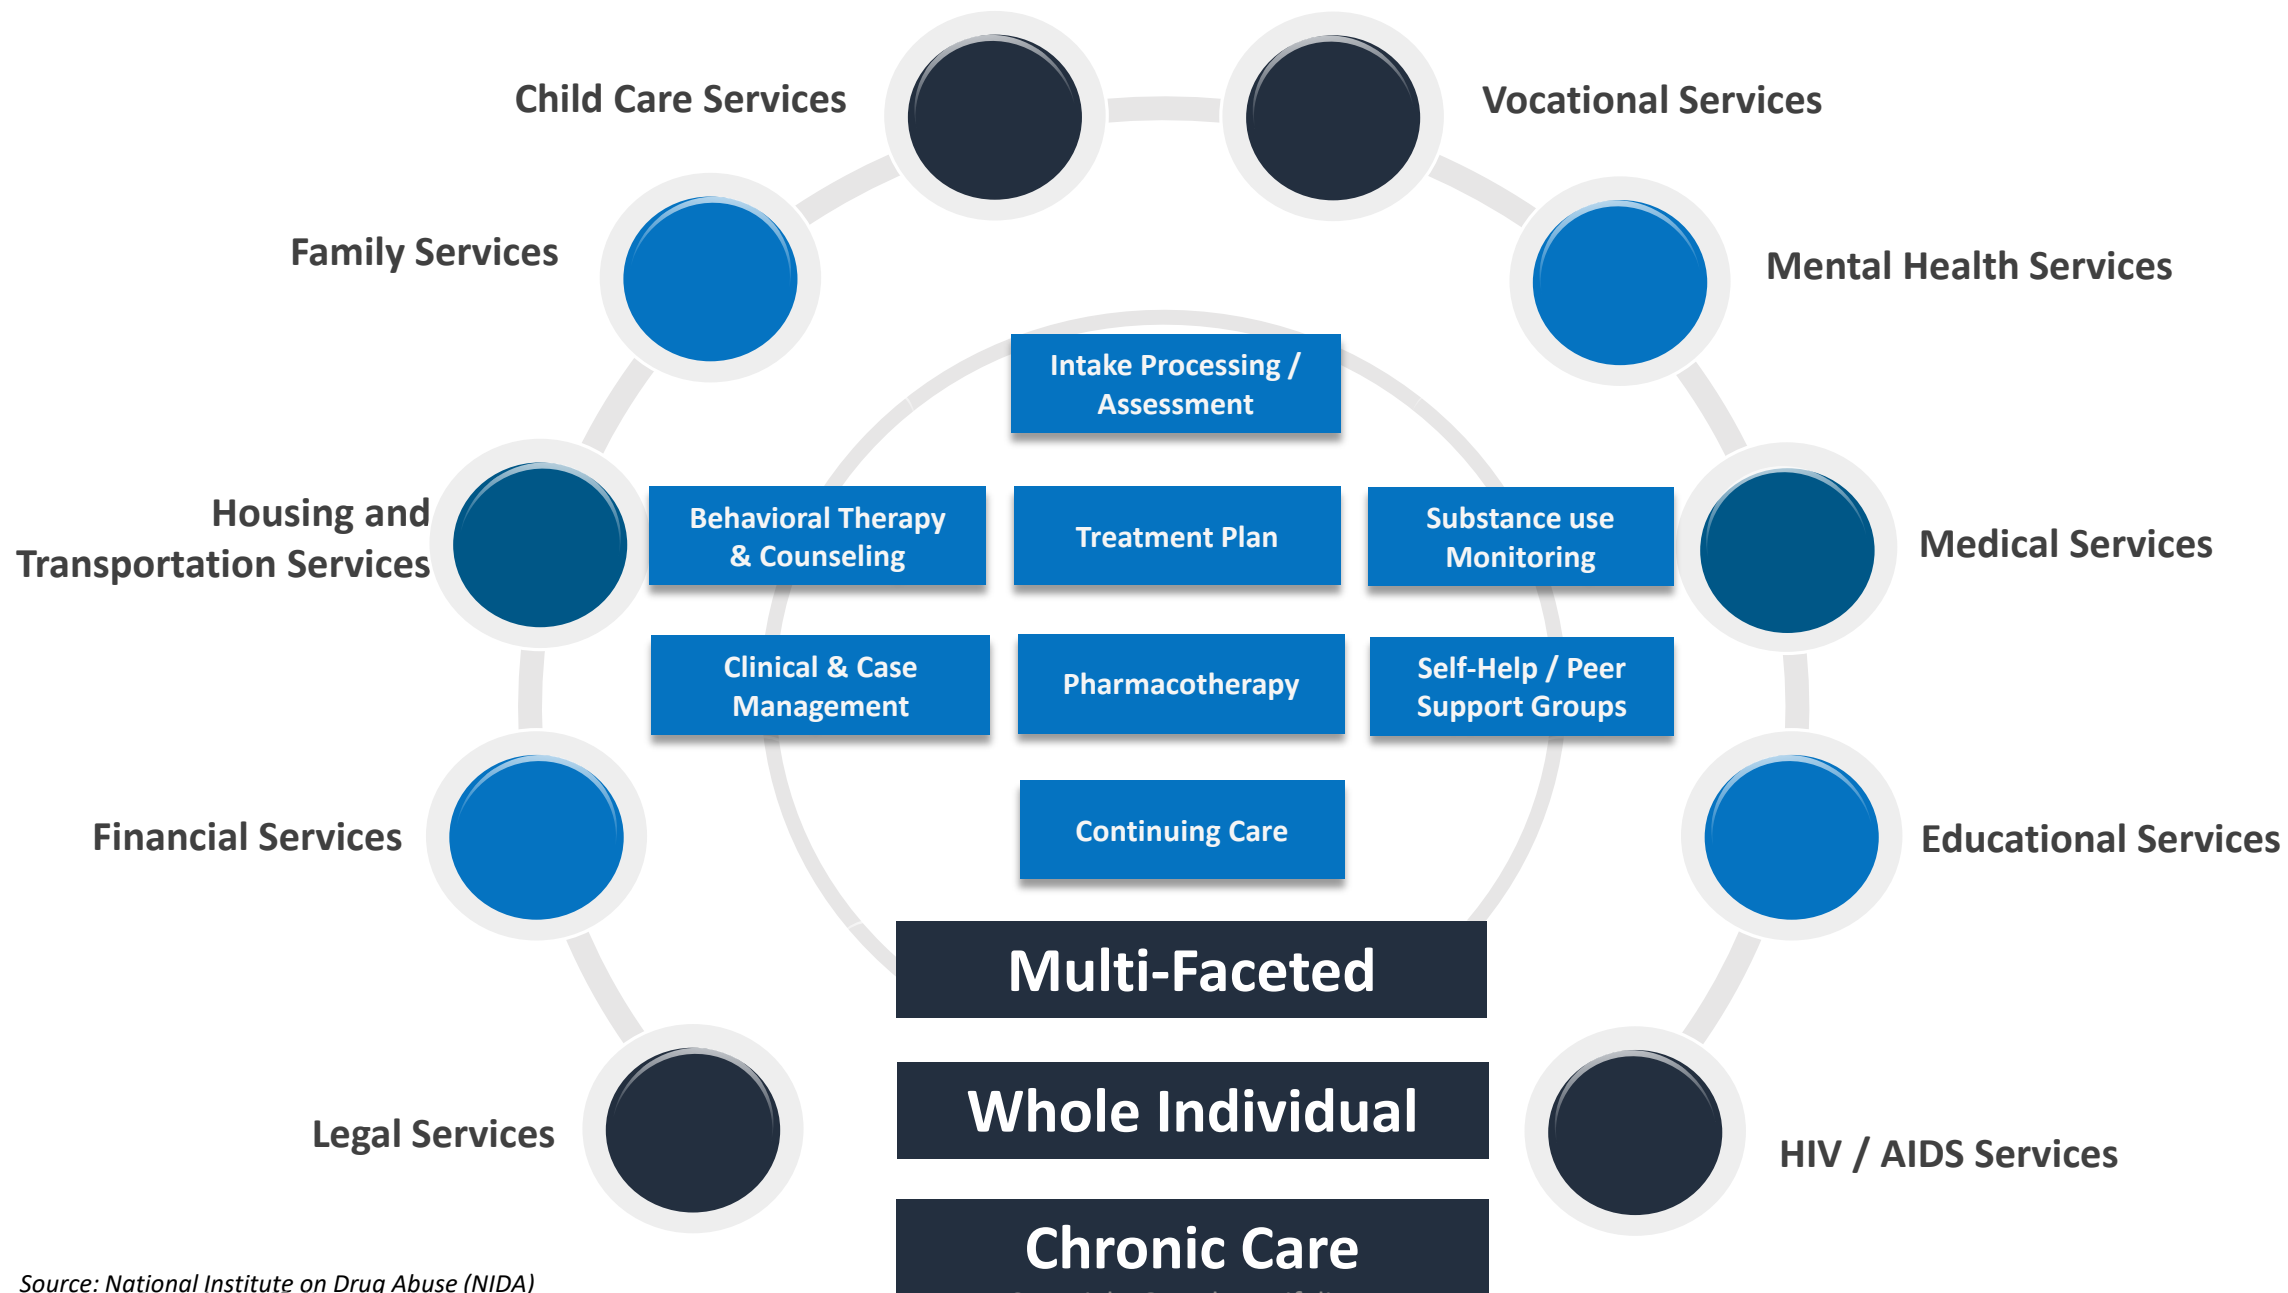

Chronic Diseases: SUD, Diabetes, Heart Disease, High Blood Pressure

With appropriate, clinically proven treatment, often including medication, many chronic diseases can be managed so that their symptoms do not impact a person's health and functioning.

Community-Wide Effort Required

"No single organization or person can address the multitude of services needed to help people affected by mental health or substance use conditions... the best sources are the people who live, serve, and work in the community and the best results are often seen when they undertake such action together."

— SAMHSA, One Voice, One Community

Cross-Sector Community Collaboration

The Overdose Lifeline training and certificate program assist clinicians, first responders, and laypersons in **building knowledge and competency** in the underserved area - substance use disorder / opioid health crisis.

Allowing individuals across community sectors to **work together more efficiently and effectively** in prevention efforts and to better serve those affected.

Take online courses from anywhere.

Completing the coursework when it is convenient for one's schedule.

- Designed for people with demanding schedules
- Courses may be taken in any order
- Courses run 1.5 to 3 hours
- Each course includes "Check Your Knowledge" activities to assist in preparing for the course final exam
- CE credit and certificate delivered upon successful course completion
- Affordable, \$15 per credit hour

Available as a 20-hour certificate program.
Or one can take individual courses for
continuing education credit.

The screenshot shows a web application interface for 'Overdose Lifeline'. At the top, there is a blue header with a 'Go to Dashboard' link and the 'Overdose Lifeline' logo. The main content area is divided into a left sidebar and a central video player. The sidebar, titled 'Removing the Shame and Stigma of Substance Use Disorder / Addiction (RSS-SUD) — ACPE 3.0 CE Credits', shows a progress bar at '0% complete' and a list of course sections: 'Introduction' (0/5), 'Course CE Credits and Certificate Program' (TEXT), 'About the Course Dashboard' (TEXT), 'Introduction' (VIDEO - 3 MIN), 'Welcome to Removing the Shame and Stigma of Substance Use Disorder / Addiction - ACPE 3.0 CE Credits' (TEXT), 'Quick Reference Sheet (PDF Download)' (DOWNLOAD), and 'Brief Review of the Science of Addiction' (0/1). The central video player, titled 'Introduction', displays a red box with the text 'Removing the Shame and Stigma of Substance Use Disorder (Addiction)' over a background image of a person's back. A 'COMPLETE & CONTINUE →' button is at the bottom right of the video player.
