CMS FINAL RULE (CMS-1694-F)

Will go into effect on October 1, 2018

- States that hospitals are given the option to either:
 - Make public a list of the hospital's standard charges (whether that be the charge master itself or in another form of the hospital's choice)
 - Implement policies for allowing the public to view a list of the hospital's standard charges in response to an individual request
- The posting of the charge information in a "machine readable format" is required beginning January 1, 2019
 - Machine readable format: unique data architecture for various fields that is able to be understood by a computer

OPIOID INITIATIVE - WHERE ARE WE NOW?

Forum funded Overdose Lifeline in 2017 for a online certificate program for addressing substance use disorder, the program will be completed in the Spring of 2019. Thank you Justin Phillips!

EMPLOYERS' FORUM OF INDIANA

2019 PREVIEW

NATIONAL HOSPITAL PRICE TRANSPARENCY STUDY

Interim report
will be
published in
January 2019

Findings will be discussed at a
one day national conference
hosted in Indy by the Forum early
March. The conference is funded
by a generous grant from the
National Institute for Health Care
Reform.

Final report will
be available
early March
2019 and
published in
April 2019

JANUARY 2019: POPULATION HEALTH PILOT RESULTS

Partnership with Indiana Health Information Exchange, Cummins, Monarch Beverage, and Indiana University

Stratify covered lives by diagnosis into 3 buckets of poorly controlled, moderately controlled and well controlled for 4 clinical measures:

- Hemoglobin A1C for Diabetes
- Blood Pressure for Hypertension
- LDL for Hypercholesterolemia
- BMI for Obesity

POP HEALTH DATA USE CASE: ON-SITE CLINICS

For an employer with an onsite clinic

To determine if their on-site clinic vendor is improving the health of people who are seen

To determine if the on-site clinic services are helping MORE than "usual medical care"

For employers who do NOT have an on-site clinic but are contemplating one

To provide a clinical baseline of their population to hold selected vendor accountable by implementing a performance-based contract

To help with strategy, i.e. prioritizing which clinical services should be the focus

ONSITE CLINIC MEASURES TASK FORCE

It is the employers responsibility to measure these and hold vendors accountable

Accountability will be enforced via implementation of performance-based contracting strategy

Charge: To develop a minimum core set of quality, efficiency, and cost measures that should be expected of on-site/near-site clinics to help employers determine what, if any, VALUE they are getting

ON-SITE CLINIC MEASURES TASK FORCE MEMBERS

FIRST MEETING IN FEBRUARY, 2019

DeeDee Appel – Indiana University

Christan Royer – Indiana University

Nicole Williams – Cummins Inc.

Natalie Roberts – Monarch Beverage

Candace Schaffer – Purdue University

Mark McLean – Fiat Chrysler Automobiles

DRUG PRICE TRANSPARENCY

Partnership with RxConnections – proposal is being finalized

Forum shared an idea in August 2017 and has been working with CVS Health CMO and ICER's CEO to use ICER reports when considering which meds to offer to employers as they decide what to place on their CUSTOM EXCLUSION LIST. CVS Health started offering this service recently nationally!

- FDA “breakthrough drugs” are excluded from this decision.....this is a problem and needs to be further addressed
- ICER = Institute for Clinical and Economic Review

FORUM RESTRUCTURE

We are proud of the work our community has done.....Thank YOU!

In an effort to engage folks who really wish to be part of moving the needle on Forum initiatives, beginning 2019 Forum meetings will be for members only and their guests.

You are invited to be a member. This involves paying annual dues which go towards supporting Forum efforts.

Members will have opportunities to attend all meetings, be on task forces, and inform the agenda.

In additions to "Members", we are creating a new category of participation, "Affiliates". Affiliates also pay dues, will be invited to limited meetings, can not be on task forces, and have the opportunity to learn/be part of Forum discussions.
