Chart Notes:

- Each acquisition report covers M&A from the previous year. For instance, the 2011 Health Care Services Acquisition Report covers M&A in 2010.
- The year listed above corresponds to the year of the announced merger or acquisition, not the year the report was published.
- If an announced merger was abandoned before the report was published, it was not included in the report.
- Some abandoned mergers could show up in the report if they were abandoned after the report was published.
