Better Outcomes. Delivered.

Employers Forum – Medication Mgmt

November 2014

IHIE Platform to Support Medication Management

- 100+ Data Senders (most hospitals in Indiana)

- 30,000 Data Receivers (Providers); 6,000+ organizations

- Medication Data Sources – Currently Limited
  - SureScripts (triggered by ED registrations in Central Indiana)
  - (Adjudicated) Claims medication data
  - INSPECT (triggered by ED registrations at a few Indy hospitals)
  - Immunizations (not stored in INPC yet)
  - A few other sources

- The technology platform is available to support medication management services

IHIE Activities - Medication Management

- All Legend Drugs – Proposed State Legislation
  - Advocated for legislation to require submission of all legend drugs
  - Participated in Study Committee and presented at State Hearing

- Working to expand multi-state PDMP access w/ NARxCHECK across Indiana

- Receiving Care Summaries (CCDs) from 53 hospitals, including VA, which *may* include medications - ~100K CCDs monthly

- Previously marketed Medication Reconciliation Support Service

- Worked on projects with Dave Kelleher, Gloria Sachdev and others to develop quality measures about medication adherence.

- Discussions with HealthLINC – Feasibility Study for Statewide Medication Management Service

Indiana Health Information Exchange

What is Needed?

The technology and technology platform exists. To launch a statewide medication management service, three things are needed…

- Champion(s)/Sponsor(s) – Employers, Insurers, others?

- More (Automated) Medication Data Capture

- Workflow Changes
