We know wide variation in hospital prices and quality exists.

All of us want to go to the best quality at the best price but it is hard to wade through the data.

How do we make hospital price and quality information easily accessible and useful?

Sage Transparency: CMS Quality & Turquoise Health
Price Data will be Updated Quarterly

Feedback Welcome!
What is on the Horizon

1. Add RAND 4.0 Ambulatory Surgical Center (ASC) data
2. Add national insurance data regarding provider negotiated prices (when available and cleaned up)
3. Develop a private dashboard for Forum members to request customizable reports
4. Develop quality measures organized by clinical categories
