National Hospital Price Transparency Conference: **Path to Affordability**

- 1. Site neutral payments**, like we have for Medicare patients. Need guardrails so hospitals can't charge people whatever they want. They can't buy a clinic and start charging hospital prices there.
- 2. Enforcement of price transparency** - penalties if non-compliant. Develop robust public quality transparency.
- 3. Prohibit anticompetitive contract language**, strengthen oversight of M/A - no more all-or-none and no more anti-steering/anti-tiering
